</html>

After students complete the above, **don't give them the code for these improvements.**
Ask them to add:

1. A **Login Page**
2. A **Student Marks Table** with subjects, marks and percentage
3. An **Achievement section**
4. A **Faculty list**
5. A **College Gallery** with 6 images
6. A **Feedback Form**
7. A **Download Notes** section using `<a>`
8. A **YouTube lecture video** using `<iframe>`
9. A **FAQ section** using `<details>`
10. Separate pages: `index.html`, `about.html`, `courses.html`, `contact.html`

This will make a good **HTML-only mini project** before moving students into CSS.
